

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

THE APPLICATION OF CINCINNATI)	
BELL, INC., FOR AUTHORITY TO)	
ADJUST ITS RATES AND CHARGES)	CASE NO. 8174
AND TO CHANGE ITS TARIFFS)	

O R D E R

Procedural Background

On March 20, 1981, Cincinnati Bell, Inc., ("Cincinnati Bell") filed a notice with the Commission requesting to increase its rates and charges for service to Kentucky customers inside the Cincinnati Metropolitan Service Area ("CMSA") to uniform levels granted in a similar rate case proceeding in Ohio (Case No. 80-476-TP-AIR) and to increase its rates and charges for service to its Kentucky customers outside the CMSA. The Commission in its Order entered September 9, 1981, approved rates and charges which increased Cincinnati Bell's revenues but were not uniform with the rates and charges established by the Ohio Commission for service in the Ohio jurisdictional portion of the CMSA and were also lower than Cincinnati Bell's requested rates and charges for service to customers outside the CMSA.

On September 29, 1981, Cincinnati Bell filed a petition for rehearing on three issues outlined in the Commission's Order

entered September 9, 1981. The issues raised were rate uniformity in the CMSA, rate of return on net investment and curtailment of revenues. Further, on September 29, 1981, Gallatin County, Grant County, Pendleton County, Dry Ridge, Falmouth, Warsaw and Williamstown ("Gallatin County, et al."), by counsel, filed a petition for reconsideration on the issue of rate uniformity, and on October 1, 1981, the Attorney General's Consumer Protection Division ("A.G.") filed a response to Cincinnati Bell's petition for rehearing which also requested that the Commission grant a rehearing to address the issue of rate uniformity. The Commission in its Order entered October 19, 1981, granted the petitions for rehearing, and a hearing was held as scheduled on December 15, 1981. Briefs were filed on January 14, 1982.

Analysis and Determination

The major service area served by Cincinnati Bell is the CMSA. The CMSA encompasses portions of Ohio, Indiana and Kentucky. Customers residing in the CMSA can call anywhere within this area for the base monthly rate, thus making the CMSA one of the largest local calling areas in the nation.

Historically, the Kentucky Commission adopted the rates set by Ohio as the fair, just and reasonable rates for Kentucky customers residing in the CMSA to be charged for service. This rate-making approach recognized the CMSA as a single service area and helped foster the growth of this local calling area, benefiting customers in Kentucky and the other jurisdictions.

In implementing rate uniformity within the CMSA, Cincinnati Bell historically allocated utility plant and expenses to the Kentucky and Ohio jurisdictions on a "revenue split" basis approved by both the Ohio and Kentucky Commissions prior to the Kentucky Commission's decision in its order of September 9, 1981, requiring Cincinnati Bell to adopt the "usage" method of separation in all future rate proceedings in Kentucky. The "revenue split" separation is applicable only when rates in the state jurisdictions are uniform, and the revenue ratio then reflects the approximate proportions of total plant and expenses required for service in each jurisdiction. Again, uniformity and its revenue split method of separation are consistent with the concept of the CMSA being a single local calling unit rather than the traditional multi-jurisdictional concept.

To refute the Commission's decision regarding the departure from rate uniformity, Cincinnati Bell provided testimony and exhibits during the rehearing process, which demonstrated that in future cases before the Commission, revenue requirements and customer rates would increase significantly (\$4.2 million in additional revenue requirements using 1980 investment and expenses) under the application of usage separation procedures. It is, therefore, the Commission's opinion that it is in the public interest to modify its Order of September 9, 1981, to establish uniform rates with Ohio for service to Kentucky customers in the CMSA and to require Cincinnati Bell to maintain the revenue split separation method for purposes of future rate applications before this Commission.

Regarding the other rehearing issues, the Commission is of the opinion that Cincinnati Bell presented no evidence in the record on rehearing to support its contentions that the Commission had erred in its determination of rate of return and denial of the curtailment adjustment.

IT IS THEREFORE ORDERED that the rates and charges in Appendix A are the fair, just and reasonable rates for Cincinnati Bell to charge its customers for service on and after the date of this Order.

IT IS FURTHER ORDERED that all rates, charges and provisions of the Commission's Order entered September 9, 1981, not specifically changed herein shall remain in full force and effect.

Done at Frankfort, Kentucky, this 14th day of May, 1982.

ATTEST:

Secretary

Regarding the other rehearing issues, the Commission is of the opinion that Cincinnati Bell presented no evidence in the record on rehearing to support its contentions that the Commission had erred in its determination of rate of return and denial of the curtailment adjustment.

IT IS THEREFORE ORDERED that the rates and charges in Appendix A are the fair, just and reasonable rates for Cincinnati Bell to charge its customers for service on and after the date of this Order.

IT IS FURTHER ORDERED that all rates, charges and provisions of the Commission's Order entered September 9, 1981, not specifically changed herein shall remain in full force and effect.

Done at Frankfort, Kentucky, this 14th day of May, 1982.

By the Commission

ATTEST:

Secretary

APPENDIX A

APPENDIX TO AN ORDER OF THE PUBLIC SERVICE
COMMISSION IN CASE NO. 8174 DATED MAY 14
1982

The following rates and charges are prescribed for the customers in the area served by Cincinnati Bell, Inc. All other rates and charges not specifically mentioned herein shall remain the same as those in effect under authority of the Commission prior to the date of this Order.

EXCHANGE RATE TARIFF PSCK No. 1

GENERAL REGULATIONS

Basic monthly rates and charges included in Section 2 following, apply to exchange access lines only. For station set or other terminal equipment charges see appropriate sections of the General Exchange Tariff PSCK No. 3.
